MEMORANDUM FOR: Assistant Director, OSA SUBJECT : Project OXCART - Awareness in Industry 25X1A (Investigation of Incident) 25X1A 1. Attention is invited to the attached report pre-25X1A pared by [OSI officer assigned to this Staff. The conclusion reached as a result of the inquiries 25X1A made is that Convair General Dynamics did not benefit from leaks of representative at 25X1A information in preparing his report on the use of titanium by Lockheed. Rather, it appears that his report was a summary of known factors concerning Kelly Johnson and Lockheed. blended with educated speculation and some "puffing". 3. It is the opinion of the writer that in all pro-25X1A bability | was not completely candid in his testimony and the possibility does exist that he picked up some information from sources not identified by him to the OSI officer conducting the inquiry. It is felt, however, that probably learned his lesson in this instance and 25X1A Will not engage in such an exercise in the immediate future. 4. It is believed that the information contained in the attached report is of value in that it provides a picture from the point of view of an industry representative looking at our special project from the outside and invites our attention to areas wherein our techniques can be improved. This Staff will conduct certain additional inquiries in regard to this matter and will continue to periodically 25X1A monitor the activities of DOCUMENT NO. SACRES INTO MEET & NO CHANGE IN CLÁSS. 的图入的图片 用入起来在 SIGNED IJ DECLASSIFIED ___. The state of the s CLASS, CHANGED TO TS S C 25X1A Chief, Security Staff AUTH: HR 70 288 NEW LA WATER LA
